

The Ravensden

Steel Combination Gate

The Ravensden 2-in-1 steel combination gate consists of our 2-way Compton bridle gate and a lockable steel field gate.

The Compton bridle gate allows for public access whilst the lockable field gate can be used by authorised users. Field gates are available in widths from 2100mm to 4200Mmm.

Bolt on padlockable drop bolt and auto-catches fit to the field gate slamming end.

An optional conversion kit enables this gate to be converted to a 1-way opening gate

Standard specification includes stock proof mesh and hot-dipped galvanised finish.

- Gate leaf width: 1.5m
- Gate height: 1.25m
- Overall width in fence line: 1.65m (+ field gate and hang post width)
