

Irrigation

waterscapes LTD
WATER FEATURE & IRRIGATION SPECIALISTS

Commercial Projects

From business parks to residential developments, Waterscapes has the experience and resources to provide tailored watering systems including drip and sprinkler methods. Installations include pump systems, sophisticated controls and rainwater recycling systems.

Parks and Recreational Areas

Waterscapes can develop and maintain all types of irrigation in private, commercial and local authority areas.

Water Resource Development & Conservation

Water is a valuable resource and conservation is the key to sustainable & economic usage. Waterscapes can develop resources such as ground water and rainwater, and produce irrigation systems to use this commodity.

Irrigation

Design, Consultancy & Project Management

Waterscapes offer a full design and consultancy service for any size of project. Consultancy can also include full project management with programming and client liaison.
