

Water Features

waterscapes Ltd

WATER FEATURE & IRRIGATION SPECIALISTS

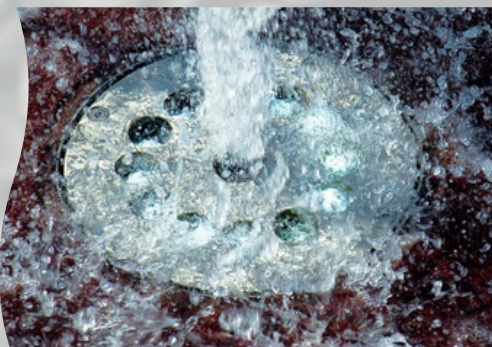

Waterscapes Limited offers a comprehensive service for display water features and fountain projects throughout the UK.

Project Types

Waterscapes work in a variety of sectors including large commercial construction projects, local authority and private clients. Services include mechanical & electrical installation, refurbishment works; waterproofing of pools and structure, bespoke sculptures.

Design & Consultancy

Waterscapes can offer advice on all aspects of water feature design, and works closely with architects and landscape professionals to produce feasibility studies, specifications and budgets. From concept to detailed design, each step of the process is fully developed.

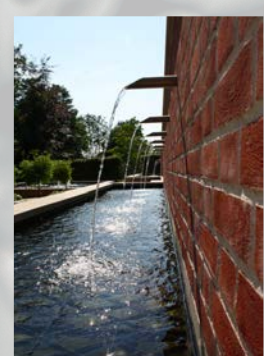

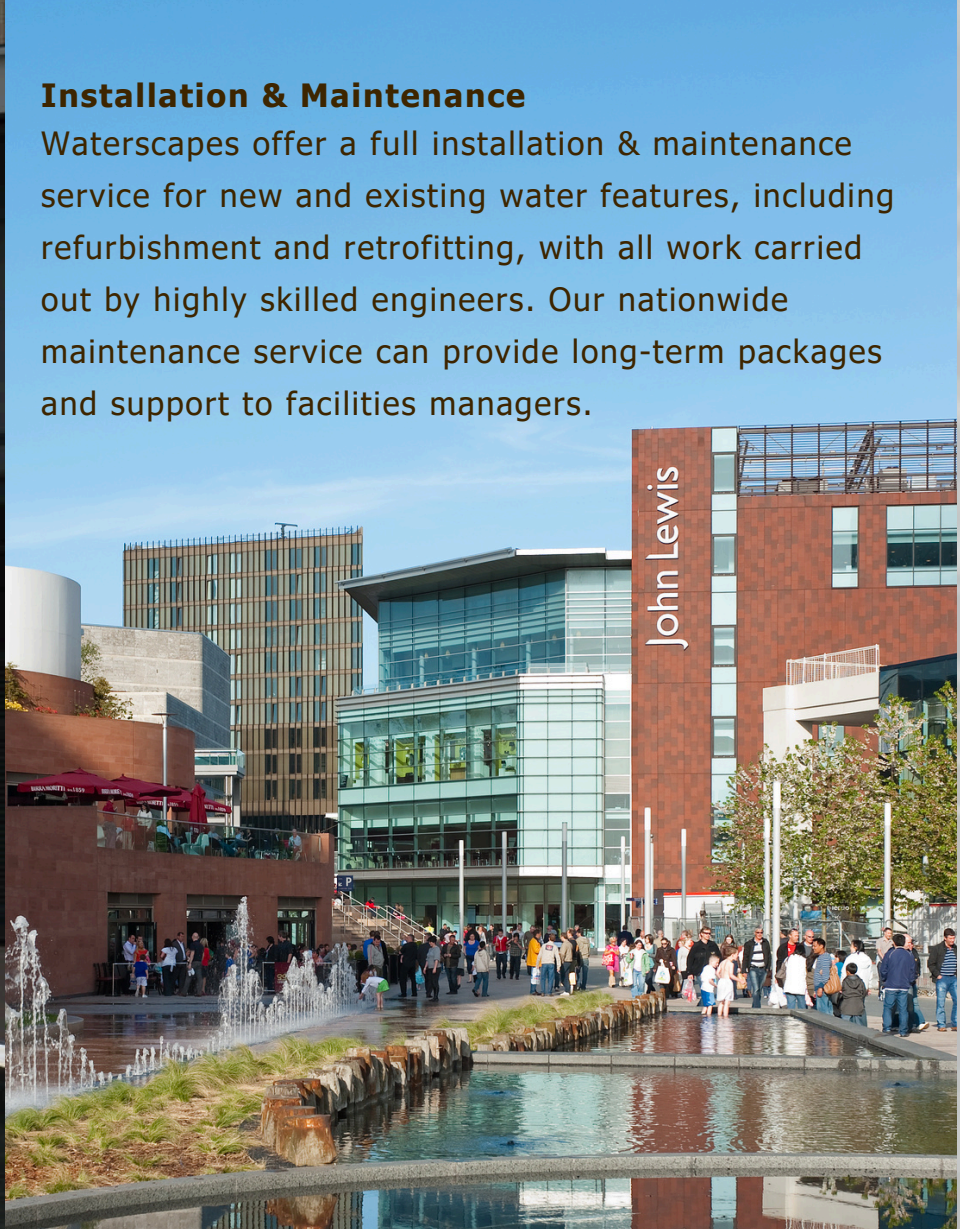

Water Fea

Project Planning & Management

The project management team will fully plan & programme the works to suit the client schedule including pre-start and progress meetings. Site specific health & safety information will be produced by fully qualified and experienced managers and issued prior to starting any works.

Installation & Maintenance

Waterscapes offer a full installation & maintenance service for new and existing water features, including refurbishment and retrofitting, with all work carried out by highly skilled engineers. Our nationwide maintenance service can provide long-term packages and support to facilities managers.
