

Greenfix AquaBoxx™

Application and Benefits

Greenfix AquaBoxx is a high strength modular crate system suitable for use in a variety of applications, including:

- Green / Blue Roofs
- Attenuation Systems
- Soakaway Systems
- Pavement Support Systems for new tree planting

Product Characteristics

The high strength Polypropylene units have an internal void space of 94% and surface perforations of 63%. The system is available in a range of different heights to suit site specific applications.

Product	Unit Size L	Unit Size W	Unit Size D
AquaBoxx 50	600mm	600mm	50mm
AquaBoxx 65	600mm	600mm	65mm
AquaBoxx 80	600mm	600mm	80mm
AquaBoxx 100	600mm	600mm	100mm
AquaBoxx 150	600mm	600mm	150mm

AquaBoxx has been independently tested and has a loading capacity of over 1000kn/m².

The system is suitable for use with standard geotextiles and geomembranes for Suds applications.
