## Modular Fingerpost

Our **Modular Fingerpost** system provides a cost-effective wayfinding solution ideal for projects with limited budgets. Constructed from lightweight, durable aluminium, it offers clear, functional directional guidance to key destinations and facilities.

While more basic in appearance and less decorative than premium options, it remains easy to read and reliable. Designed with practicality in mind, it's a suitable choice for schools, parks, housing developments, and other environments where straightforward navigation is needed without the added cost of aesthetic detailing.

### Product features

- \* Aluminium construction
- \* Variable direction arms
- \* Self adhesive vinyl lettering and logos
- \* Powdercoat finish to standard colour
- \* Single, double and triple line directional arms
- \* 1 year manufacturer's warranty
