

City 950mm Polyurethane

The AUTOPA City Polyurethane Bollard has a contemporary design and is ideal for use in urban areas. Best suited for traffic calming and perimeter identification, the City Bollard is available with up to three reflective bands for added visibility if required. Corrosion and shatter proof, this bollard is cast in an engineering grade, heavy duty polymer around a steel core.

Available concrete in and black only, the City Bollard is a highly durable alternative to cast iron bollards.

Reflective tape can be supplied in a range of colours (please specify colour at time of order). Highway Standard reflective banding is also available upon request.

<u>Part Number</u>	<u>Description</u>	<u>Weight (kg)</u>
138 124 050	City	18kg

Product details

- Available concrete in only
- Concrete in 300mm (below ground)
- 140mm diameter
