

Square RetractaPost-GL 500

500mm

Galvanised or Galvanised & Colour

The Square RetractaPost-GL 500 offers a highly effective and robust way to protect premises and vehicles. The RetractaPost-GL is raised and lowered vertically. The post is 500mm above ground when raised and is fabricated from square mild steel tube which is then galvanised. When lowered the post is fully below ground and covered using the integral lid. The post is lockable in the raised position by rotating the post 45° and then pressing the high-security push button 7-pin security lock. The post is unlocked using the supplied key, rotated and then lowered.

The RetractaPost-GL is ideal for protecting vehicle forecourts, commercial premises, car parks and domestic driveways.
