

CHURCH SIGNS

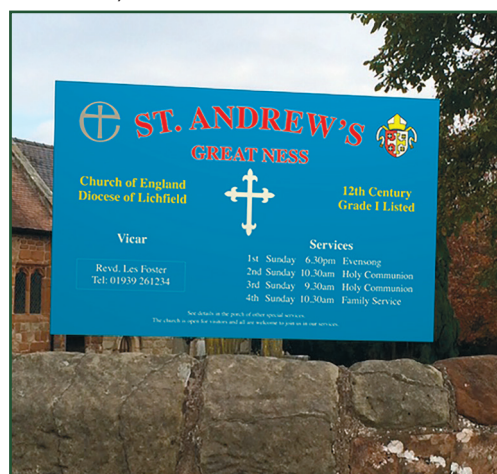

Shelley Signs work with Churches and Places of Worship across the country. We offer a full design & production service and can help with Entrance signs, directional signs, lockable notice boards, temporary signs and Interpretation panels to meet Heritage Lottery & other Grant Funding requirements.

We understand that funding is often tight and always hard earned. We also appreciate that Faculty permission is often required and can provide sketches to assist in this process. We aim to supply high quality products that will provide many years of service. As size and style requirements vary, we prefer to chat through your job rather than offer 'standard' solutions.

Entrance Signs

Welcome & Entrance signs can be supplied with our exceptionally robust, colour fast and easy to clean GRP material and supplied with timber or aluminium frames & posts - framing being an aesthetic decision to suit your environment. Styles can vary from the classic through to more contemporary styles- this page provides a few examples.

Classic style

Hand painted

Notice Boards

Lockable notice boards and open pinboards are an effective way to display your own, changeable information. Notice boards can be produced in aluminium, oak or softwood, are available in a wide range of sizes and can also be incorporated into permanent information and welcome signs. Notice boards can be wall or post mounted. Please request a copy of our Notice Board leaflet or [download](#) a copy. This page should provide some ideas and inspiration.

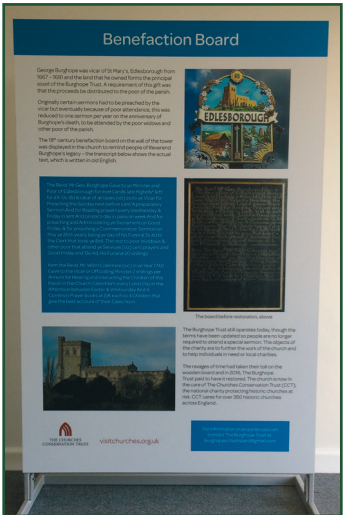

Interpretation

Shelley specialise in the design & production of interpretation panels for both internal and external applications. Whether you are looking to meet the interpretation requirements of an HLF grant or more generally looking to educate and inform your visitors Shelley can help design and produce attractive but robust signs and panels.

We can work from your own digital artwork or use the Shelley in-house design team to create artwork for you. Examples include both external panels and a range of internal displays.

Internal displays

General Signs

Shelley Signs offer a wide range of general signs which range from event banners to directional signs, pavement signs and hand painted timber signs. These pictures give examples only but please call or email to discuss the options.

How to Order

For most clients we prepare a formal quotation – this will cover information about size, quantity, who is preparing the artwork and what fixings are required. You can email this information or call us on 01743 460996 to discuss. We can accept instructions to proceed by email and normally raise an invoice when the goods have been despatched.
