

PANEL PLANTER SYSTEM

PRODUCT SPECIFICATION

■ The Panel Planter System is designed primarily as a light weight option that is free-standing and ideal for use where site excavation is not always possible or required.

■ This system is commonly used on roof gardens and terraces.

■ This solution comprises vertical Naturally Very Durable Hardwood components fixed to a Galvanised frame supplied in panel form.

■ This system can be specified to any shape, radius, size and height. It is ideally suited to producing curved and sweeping shapes, fully tailored to your design.

■ Available in straight or curved configurations to meet your bespoke requirements.

■ Supplied in pre-fabricated clad panels for simple and quick on-site bolt together assembly.

■ Can be used as walls or complete planters.

■ Clad to all or visible faces only.

■ This flexible system is tailored to your individual requirements and can be supplied with, or without, a wide range of straight or curved coping options.

- No Coping
- 90 x 40 Coping
- 140 x 40 Coping
- 140 x 65 Coping
- 190 x 90 Coping

■ Available in FSC Certified Hardwood.
