

MODULAR PLANTER

PRODUCT SPECIFICATION

street furniture planters 01

- The Modular Planter System provides a means of building planters in a range of shapes and sizes that are quick and easy for on-site assembly.
- Manufactured from Naturally Very Durable Hardwood along with the stakes, pegs and matched grain pellets.
- Each planter component measures 140mm deep x 65mm thick, therefore the height of the planter is determined by multiples of 140mm. e.g. two deep is 280mm high and four deep is 560mm high etc. Non-standard sizes and shapes are available upon request.
- All planters can be supplied with an optional base, including holes to take forklift when required, slatted seat top or linking seat. Light units can be recessed and fitted if specified.
- Multiples of the below standard length options can achieve planters of varying sizes.
- Available in FSC Certified Hardwood.
