## LOCHRIN COMBI™ CPNI

**YOUR FIRST LINE OF DEFENCE.  
DESIGNED TO SECURE CRITICAL  
NATIONAL INFRASTRUCTURE.**

Lochrin™ Bain CPNI rated Combi™ palisade fencing has been installed on various high profile sites nationwide. The unique patented design offers a new level of security, giving substantial advantages over alternative fencing solutions.

- Approved for UK Government use, for details contact CPNI.
- Quick and simple installation. Panels designed to rake 300mm over standard panel unlike rigid mesh options.
- Patented design allowing pales to pass through rails, with unique counter bored fixing offering an unmovable pale.
- Simple Integration with electric fencing and detection systems including PIDs, and CCTV.
- Emergency exit, pedestrian, and vehicle gates manufactured to the same security level of fencing.

### APPLICATIONS:

- CNI sites, MOD facilities, Datacentres, Utility sites, and Airports.

## LOCHRIN WeaveGUARD™ CPNI

**A LEADING EDGE FENCING SYSTEM  
DEVELOPED BY OUR IN HOUSE DESIGN  
TEAM TO HELP SECURE CRITICAL  
NATIONAL INFRASTRUCTURE**

Lochrin™ WeaveGUARD™ is a tightly woven rigid mesh panel which due to the gaps between the high tensile steel wires being minimal has no footholds and offers a substantial delay to attacks from power tools when compared to traditional welded mesh systems.

- Approved for UK Government use, for details contact CPNI.
- High Tensile wire offers substantial delay to cutting.
- Mesh apertures prevents footholds for anti-climb.
- Simple Integration with electric fencing and detection systems including PIDs, and CCTV.
- Emergency exit, pedestrian, and vehicle gates manufactured to the same security level of fencing.

### APPLICATIONS:

- CNI sites, MOD facilities, Datacentres, telecommunication compounds, and Utility sites.

Approved for UK Government use. For details contact CPNI
