

clean station - marie

OPTIONS

6 standard colours, but can be finished in any of our huge range of paint and special effect finishes to special order.
 Can be supplied with a lockable castor base (visible)
 Can be supplied without a plant, ready for either live or artificial planting by the customer (planting height 150mm).
 Can be supplied with aluminium plates suitable for bolting to the floor for exterior use.
 Can be supplied with a range of graphic messages.
 Copper surfaces can be lacquered for easy maintenance – however this greatly reduces the antimicrobial effect.
 This can also be painted in matching or complementary colour to the main body if required.
 Also available in other colours and finishes see main brochure.
 The Clean Station is supplied with a 5 litre bottle of hand sanitiser included.
