

Verso P, X, 490, 24

Modular V-shaped barrier made by shaping a single thick plate with a handrail in cylindrical stainless-steel tube. The panel is also available in a "terminal" version (half panel with vertical plate), is prepared for installation into concrete foundations thanks to the lower foot in solid tube.

Dimensions

H: 1000mm
W: 240, 490, 1490mm
D: 60mm

(Technical Drawings for variants available on request)
