Playsculpture climbslide 7.9

A sculpture that keeps fit, is fun and serves for relaxation? Is that possible? The climbslide 7.9 helps seniors to improve their balance and strengthen their muscles. They have fun with their grandchildren, stay fit and can have a cosy chat on it. climbslide 7.9 inspires young and old.

Design:

All objects originate from a single form – the so-called double helix, the form of the DNA strands of all living things. They thus have an energising and harmonising effect on people and the environment.

Material:

All products are constructed using 100% ecological and sustainable Accoya wood, and have a minimum outdoor life span of 25 years. They are low-maintenance and resistant to vandalism.

Safety:

All objects are manufactured according to European safety standards for playground equipment SN EN 1176.

Tech. Specifications:

Length: 791 cm
 Width: 276 cm
 Height: 241 cm
 Weight: 1652 kg
 Critical fall height: 241 cm
 Number of foundations: 7
 Construction time (approx.):
 4 pers. à 5 hrs.
 Crane required
