

Product Detail

The Wheel Stops are an effective method of preventing parking overruns. Now better than ever with improved surface finish, improved reflective panels and now include covers for the fixing bolt holes. Manufactured from highly compressed recycled rubber for a long service life.

Highly visible from all sides the Wheel Stops are highly adaptable to meet many requirements to reduce damage to vehicles and property, among them being car parks, glass fronted buildings, showrooms etc. They can also be installed in areas where drilling into the floor is not permitted e.g., multi-story carparks by means of our special 3-part adhesive.

- Quickly and easily installed
- Highly visible reflective markings
- Long service life
- Oil, heat and UV resistant
- Fixings included

Colours:

- Black with yellow or white reflective panels
- Brick red with white reflective panels
