

Product Detail

Solar Path Light is a professional aluminium post light with a durable and decorative diffuser. The bright light emitted from the long-life LEDs chips (3.5W) is an impressively bright 420 lumens. Unlike cheaper alternatives, this is an amazingly high output for any solar path light. Epistar LED generate this high 420 lumen output with up to 50,000 hours life. Due to the shape of the lens, illumination from the Olympia 800mm path light is an 'anti-glare' 'spread of light. The diffuser shape helps shine light outwards and downwards in a soft wash. The frosted detail on the polycarbonate diffuser also helps this, as well as looking contemporary and stylish

- Monocrystalline Solar Panel (up to 25 year life)
- Replaceable LiFePO4 Lithium Battery (LFP long life)
- High Output Daylight or Warm White Epistar LEDs (420 lumens) 3.5w
- Down Light / Spread Light Illumination (anti-glare)
- Durable Die Cast Aluminium (IK10) & Polycarbonate Clear & Frosted Striped Lens
- Matching Solar Pedestal Light and Solar Wall Light
