

INVICTA™

LITTER BIN

www.glasdonlitterbins.com

The Invicta™ Litter Bin is manufactured from 2mm thick mild steel with an Armortec®* coating which offers a very strong and robust construction and outstanding durability and weather resistance.

These high quality materials offer excellent resistance to vandalism, coastal sea spray and annual road gritting salt. This minimises the requirement for expensive refurbishment that is often associated with metal litter bins.

Invicta has a large front opening hinged door. This allows unrestricted access to the liner which reduces manual handling issues as the liner does not need to be lifted to be removed from the bin.

Four large apertures encourage use and a Durapol®# material base tray that sits beneath the liner helps prevent the build up of waste in the bottom of the bin.

Scan to see the vandal testing video or view on YouTube.

Design Features

- Extremely strong construction offers long life.
- Armortec coating offered as standard.
- Robust stainless steel hinge and lock mechanism.
- Quick and easy to use slam to lock door.
- Four large apertures with angled shelves ensure waste enters the liner.
- Traditional style to co-ordinate with any environment.

Optional Extras

- Hood mounted ashtray or cigarette stubber plate.
- Two decorative bands in Gold or Silver.
- Bin-it™ symbol in Gold or Silver.
- Litter Legend graphics kit in Gold or Silver.

Fixing Options

- Concrete Foundation Fixing Bolts.
- Concrete Paving Fixing Kit.

Materials

Bin body and door: 2mm thick mild steel with Armortec coating.

Bin base and plinth: 5mm thick mild steel with Armortec coating.

Base tray: Durapol material

Liner: Zinc-coated steel or Durapol

Hinge and lock: Stainless steel

Specifications

Liner capacity: 110 litres

Bin volume: 120 litres

Height: 1060mm

Width and depth: 530mm

Weight (without liner): 51.5kg

Weight (with liner): 58kg

Colours

Black

*Armortec® corrosion resistant coating is specially formulated to extend the life of Glasdon metal products and components used externally.

#Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol will not chip or rust, is easy to clean and never needs painting.
