

Fono

DJ-booth and hangout spot

Outdoor meeting point for teenagers

Fono is a meeting place for youngsters and teenagers, and challenges them to express themselves in a creative way. Fono allows teenagers to come together in a positive and constructive manner.

“This is the missing link between playgrounds and sports areas.”

Oscar Hulscher - Manager Sportbuurtwerk Stadsdeel Zuidoost - Amsterdam

Be a DJ

Fono is a genuine DJ table - built for the innercity and urban outdoors. It works with any phone; no Bluetooth or internet connection needed! Add DJ effects to your smart phone music, such as filters or echos. Record loops, use the crossfader, scratch and more! Simply do everything real DJ's do, with the help of intuitively placed touchpads and LED lights. It's vandalism and all-weather proof.

Fono Hangout

Fono is much more than just a DJ table. Fono is a meeting point for youngsters with a DJ system at its core. It's a place where dancers can try their latest moves, and a place for the crowd to gather and enjoy the show. Fono is a perfect addition to skateparks, shopping areas, schools and shared public space.

Fono tailors to the demands of the teenage generations, and is thereby facilitates positive contribution to the public realm.

Red Dot Design Award

The Fono has won the highly acclaimed Red Dot design award in 2014. An expert jury awarded this international prize for Fono's exceptional functional design and robust and modern appearance. The design was chosen from 4,815 entries from 53 countries competing in various categories - and is arguably the most prestigious design award in the world.
