

**6001R** - 150mm Robinia Step Post

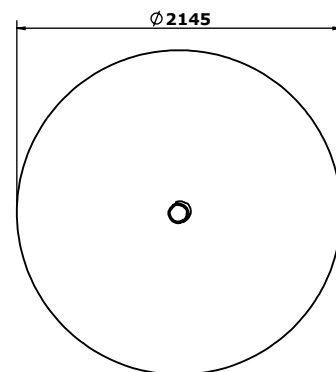

## Trim Trail - Robinia - 150mm Step Post

Following on from our successful trim trail range is our new Robinia trim trail.

The Step Post is probably the most simple part of any trim trail set up however, that doesn't stop them from being great fun! Step Posts are often placed in a line to form a balancing challenge but they can also be used individually.

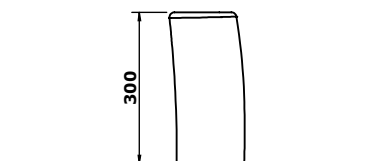

Robinia is one of the hardest European woods and offers superior longevity over pine or other softwoods. Pairing Robinia timbers with our high-quality stainless-steel fixtures make for a trim trail that can withstand years of fun!

As well as improving balance and coordination trim trails improve strength and fitness without you even realising it. The range can be used individually or placed together to create challenging courses for all ages and abilities.

**6001R** - Surfacing Overview
