

6006R - Robinia Balance Beam

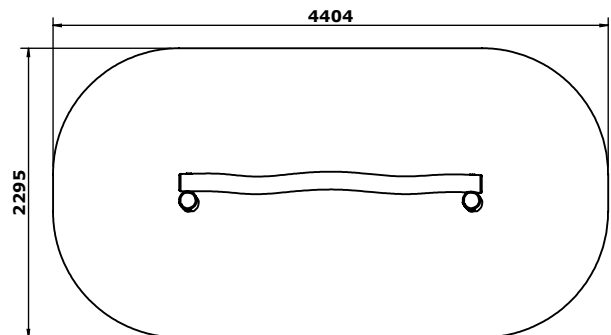

Trim Trail - Robinia - Balance Beam

Following on from our successful trim trail range is our new Robinia trim trail.

The Balance Beam is a playground classic and can be used in a multitude of different ways. These include connecting parts of the playground, being a challenging part of any course and providing seating for both children and adults.

Robinia is one of the hardest European woods and offers superior durability over pine or other softwoods. Pairing Robinia timbers with our high-quality stainless-steel fixtures make for a trim trail that can withstand years of fun!

As well as improving balance and coordination trim trails improve strength and fitness without you even realising it. The range can be used individually or placed together to create challenging courses for all ages and abilities.
