## Trim Trail - Robinia - Burma Bridge

Following on from our successful trim trail range is our new Robinia trim trail.

Children will love crossing back and forth across the Burma Bridge. It is great for connecting different parts of the playground or as its own feature.

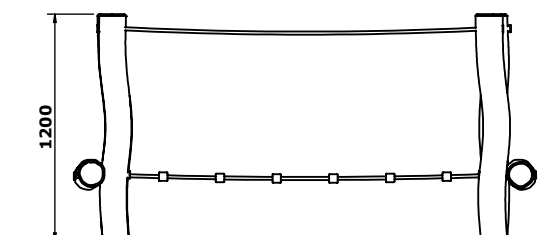

Robinia is one of the hardest European woods and offers superior longevity over pine or other softwoods. Pairing Robinia timbers with our high-quality stainless-steel fixtures make for a trim trail that can withstand years of fun!

As well as improving balance and coordination trim trails improve strength and fitness without you even realising it. The range can be used individually or placed together to create challenging courses for all ages and abilities.
