

5001R - Robinia Seesaw

Seesaw - Robinia Seesaw

The Robinia Seesaw is a classic piece of playground equipment that allows children to work together to maximise play value. We've taken our standard Seesaw and can now offer it in Robinia timber. Not only does this offer a more natural product, but the unique characteristics of the Robinia timber makes it stand out within your scheme.

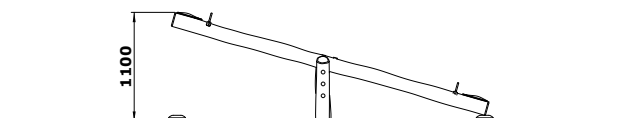

Robinia is one of the hardest European woods and offers superior longevity over pine or other softwoods. Pairing Robinia timbers with our high-quality stainless-steel fixtures make for a Seesaw that can withstand years of fun!

Each Seesaw is entirely unique as every timber is different. We also offer a four seater version of this Seesaw that is double the fun. This Seesaw will be a great addition to any existing play area but equally can also be used on its own.

5001R - Surfacing Overview

Product Type:	Seesaws And Springers
Product Category:	Robinia Seesaws
Age Range:	3+
Promotes:	Balance, Co-operation, Physical
Total Height:	1.1m
Max Fall Height:	1100mm
Surfacing Req:	20.2m ²
Weight / Heaviest Parts:	84kg / 51kg
Concrete Required:	0.125 m ³
Installation:	1 People
Installation Hours:	2 Hours
