

6008R - Robinia Slalom

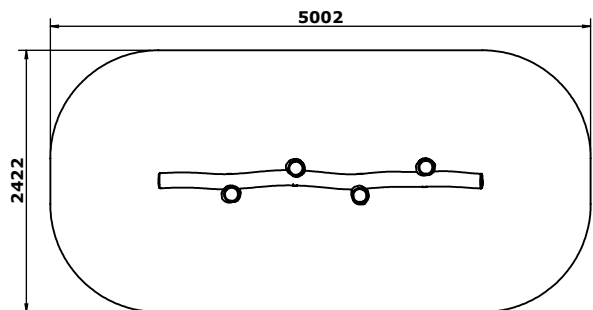

Trim Trail - Robinia - Slalom

Following on from our successful trim trail range is our new Robinia trim trail.

Weave through the vertical posts whilst keeping your balance along the Slalom. The gentle slope of the balancing beam allows for climbing up at the beginning or jumping down at the end. It is a unique challenge and great for all ages.

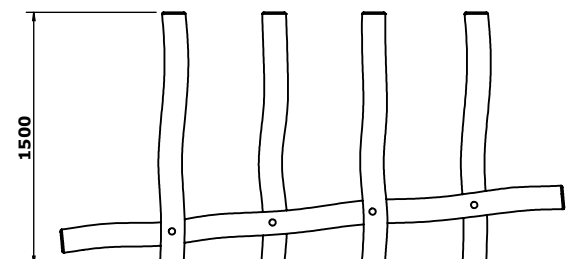

Robinia is one of the hardest European woods and offers superior longevity over pine or other softwoods. Pairing Robinia timbers with our high-quality stainless-steel fixtures make for a trim trail that can withstand years of fun!

As well as improving balance and coordination trim trails improve strength and fitness without you even realising it. The range can be used individually or placed together to create challenging courses for all ages and abilities.
