## Trim Trail - Robinia - Snaky Steps

Following on from our successful trim trail range is our new Robinia trim trail.

The Snaky Steps are a great solution for smaller spaces as they offer a long length of balancing beam in a more compact format. The gentle rise and fall of the beams also adds another dimension to the challenge.

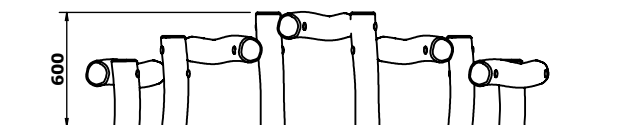

Robinia is one of the hardest European woods and offers superior longevity over pine or other soft woods. Pairing Robinia timbers with our high-quality stainless-steel fixtures makes for a trim trail that can withstand years of fun!

As well as improving balance and coordination trim trails improve strength and fitness without you even realising it. The range can be used individually or placed together to create challenging courses for all ages and abilities.
