

6015R - Robinia Swinging Steps

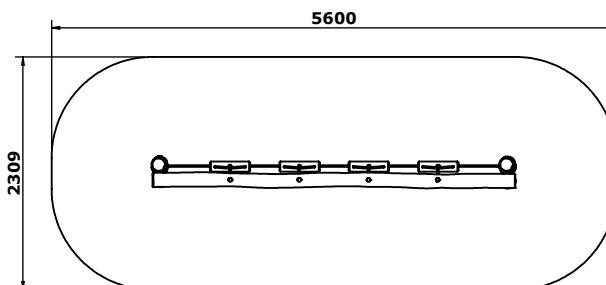

Trim Trail - Robinia - Swinging Steps

Following on from our successful trim trail range is our new Robinia trim trail.

Take the plunge and swing along the Swinging Steps. Each step can spin you right around making the next step more difficult. The swinging steps can help build balance and dexterity, and is a challenging piece of equipment to cross.

Robinia is one of the hardest European woods and offers superior longevity over pine or other soft woods. Pairing Robinia timbers with our high-quality stainless-steel fixtures makes for a trim trail that can withstand years of fun!

As well as improving balance and coordination trim trails improve strength and fitness without you even realising it. The range can be used individually or placed together to create challenging courses for all ages and abilities.
