## Trim Trail - Robinia - Trapeze

Following on from our successful trim trail range is our new Robinia trim trail.

The Trapeze is the next step up from the monkey bars offering a greater challenge due to the rotation of the hand grips. The Trapeze will test upper body and hand strength to the limit.

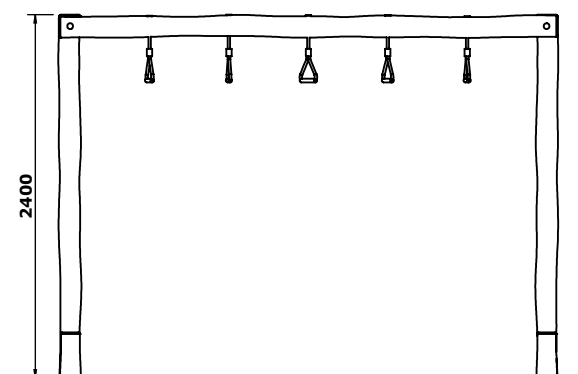

Robinia is one of the hardest European woods and offers superior longevity over pine or other softwoods. Pairing Robinia timbers with our high-quality stainless-steel fixtures make for a trim trail that can withstand years of fun!

As well as improving balance and coordination trim trails improve strength and fitness without you even realising it. The range can be used individually or placed together to create challenging courses for all ages and abilities.
