

Hunter Construction Sport & Leisure Division

Hunter Construction has fifteen years' experience in the design and construction of artificial, all-weather surfaces for athletics, football, hockey, tennis and multisport arenas.

Hunter Construction offer a comprehensive range of sports surfaces to suit all clients. This includes sand-filled, non-sand-filled, acrylic and polymeric types of artificial surface.

The company can also supply and install the latest 'new generation sand/rubber surfaces developed for football. All sports surfaces offered are accredited to international standards, with compliance to BS 7044, IAAF and FIH requirements. The company is also a full member of the Sports and Play Contractors Association (SAPCA).

Technical support

A full design service is available for all aspects of a project. This includes planning advice, preliminary and detailed design, including geotechnical and topographical surveys. Assistance is also offered with the preparation of budget project costs.

Sitework

Hunter Construction provide a 'start-to-finish' service which encompasses all aspects of the design and construction of sports surfaces, together with the provision of ancillary features such as floodlighting, fencing and stadia.

Maintenance and renovation

A repair, maintenance and specialist refurbishment service for sports surfaces can be provided.

Projects

The company's client portfolio includes clubs, associations, educational establishments and local authorities.

Projects include;

- Two full sized water-based and sand-filled hockey pitches, Dundee International Sports Complex;
- Sand-filled grass hockey and football pitch and six-lane polymeric running track, Pickaquoy Centre, Kirkwall;
- Gateshead Stadium, Tyneside;
- Synthetic grass, Liverpool FC Soccer Academy.
