See-Saws & Rockers

Age range 3 to 16

Wicksteed *Naturally*

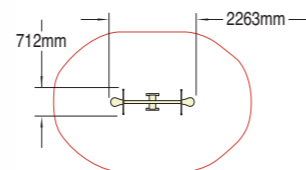

The rocking experience on playground equipment enhances our children's proficiency at balancing and co-ordination, whilst encouraging co-operation and social interaction. Our contemporary designs promote these skills in stages to enable youngsters from 3 years upwards to learn and develop these abilities. We also choose to continue marketing our timeless styles of see-saws and rockers, which are well known and still loved by so many.

Glow Worm

Product code 6060-048

Glow Worm is our contemporary see-saw for children as young as 3 to begin to learn to balance whilst rocking up and down, often starting with their parent's help.

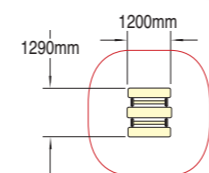

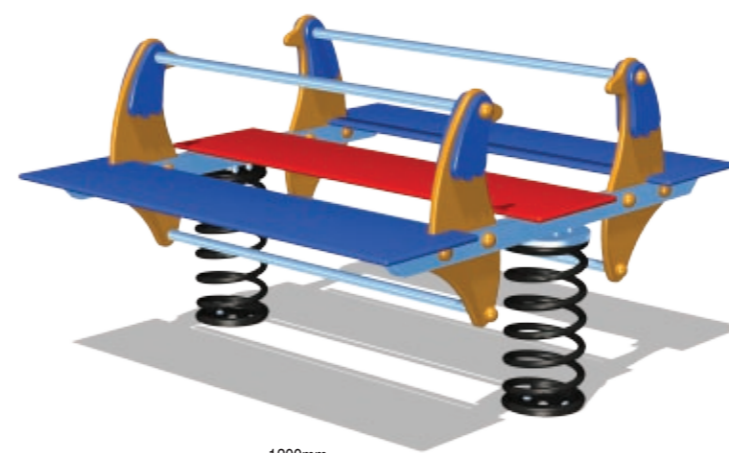

Wet Pour Safety Surfacing
1.0m FFH: 17m² x 40mm

Cockerel Rock 'n' Roll

Product code 6060-066

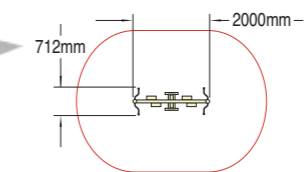

Wet Pour Safety Surfacing
0.6m FFH: 10m² x 20mm

Cobra

Product code 6060-049

Rocking back-to-back and pushing with the feet. The rocking experience is now more of a challenge and the competitive spirit is the rule of the day!

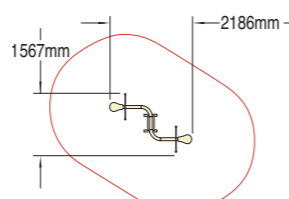

Wet Pour Safety Surfacing
0.9m FFH: 17m² X 40mm

Sidewinder

Product code 6060-047

Balancing and co-ordination skills have developed to the next stage by the time the youngsters move on to the Sidewinder See-Saw. With this novel snake shape adding a higher degree of difficulty, co-operative play becomes more important.

Product code 6060-076
Wet Pour Safety Surfacing
0.6m FFH: 7m² x 20mm

Timeless Classics

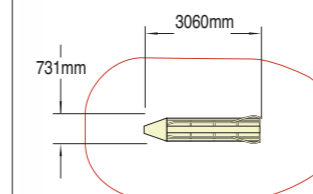

We can all remember the see-saws and rocking horses in the playgrounds when we were children and they have undoubtedly stood the test of time both in play value and durability. Whilst we are continually developing contemporary rocking experiences, the timeless see-saws and rockers can still be a firm favourite with children and, whilst they are still so popular, we see no reason to disappoint our customers by discontinuing them.

See-Saws & Rockers

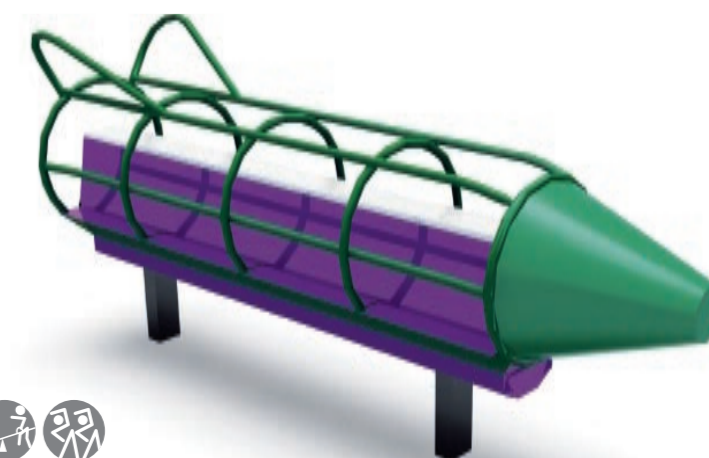

Age range 3 to 16

Rocking Rockette

Product code 6060-013
Rocking Rockette's damper mechanism keeps its movement to an exciting but acceptable level. This, and its surround support and safety guarding, encourages inclusive play allowing children of all abilities to play together and support each other.

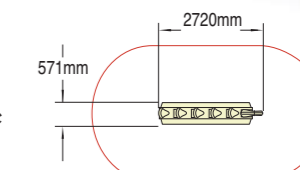

Wet Pour Safety Surfacing
1.2m FFH: 22m² X 40mm

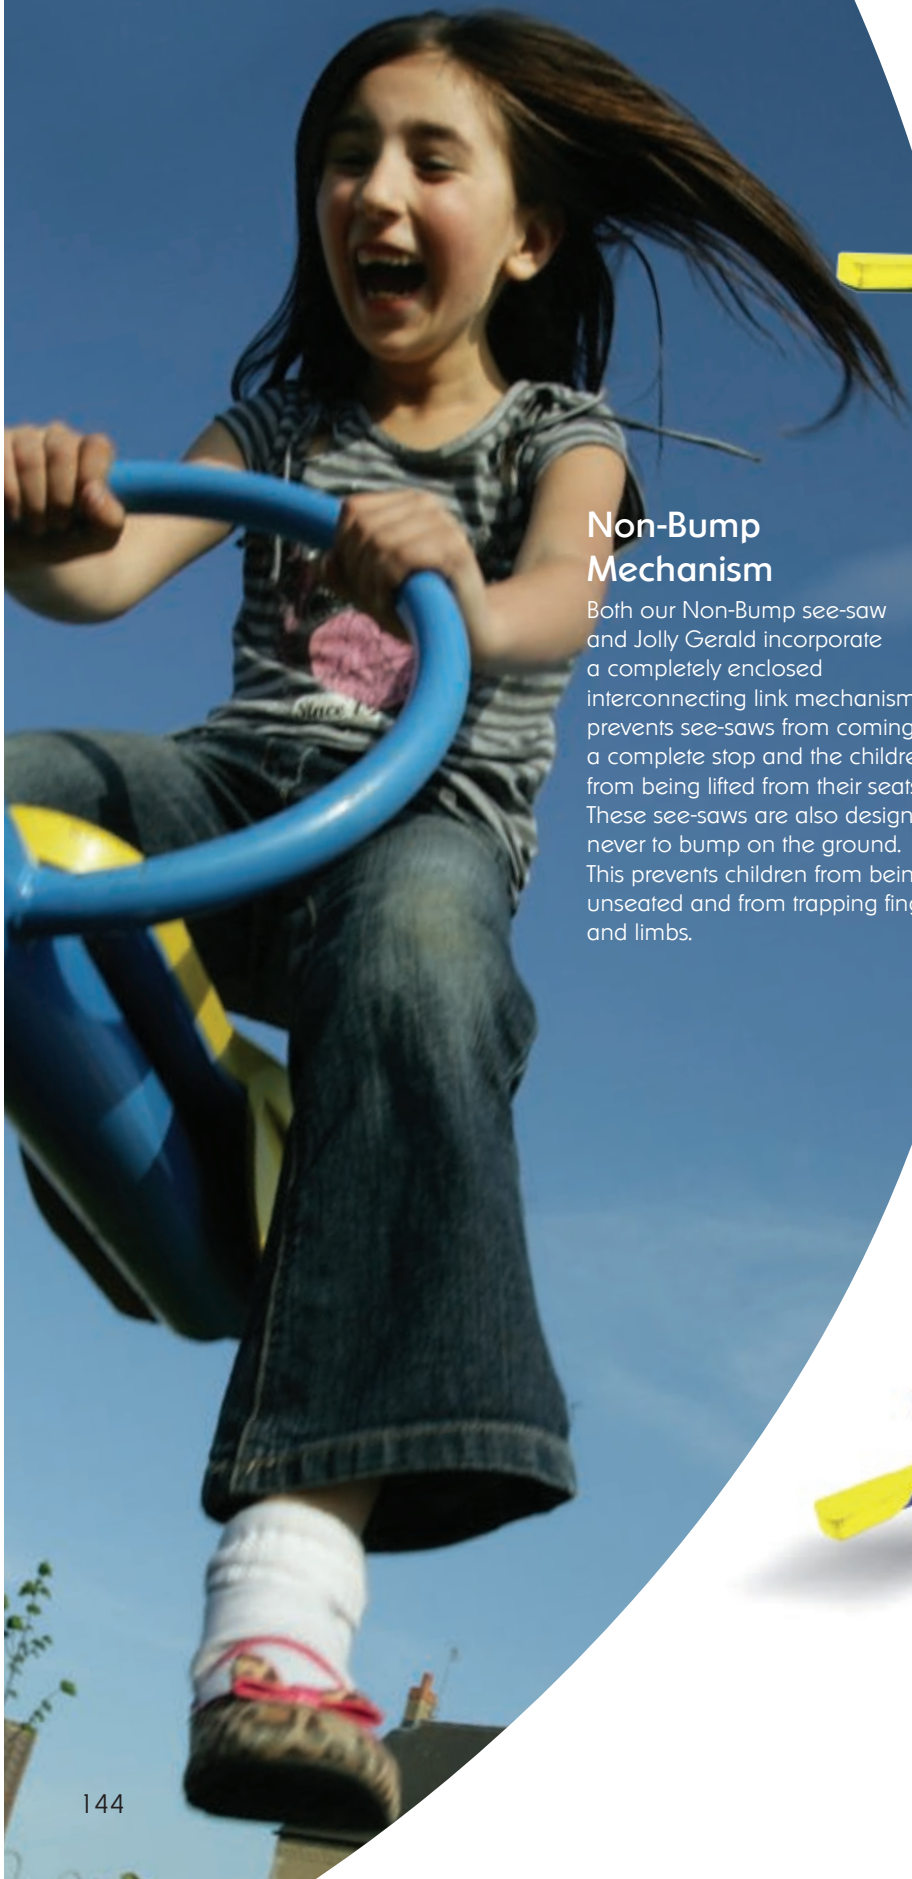

Rocking Horse

Product code 6060-011
Our Rocking Horse is still a perennial favourite and an ideal choice to encourage inclusive play. Children can rock to their hearts' content together - our built-in mechanism will prevent excessive movement without spoiling their fun.

Wet Pour Safety Surfacing
1.1m FFH: 20m² x 40mm

Non-Bump Mechanism

Both our Non-Bump see-saw and Jolly Gerald incorporate a completely enclosed interconnecting link mechanism that prevents see-saws from coming to a complete stop and the children from being lifted from their seats. These see-saws are also designed never to bump on the ground. This prevents children from being unseated and from trapping fingers and limbs.

See-Saws & Rockers

Age range 3 to 16

Non-Bump See-Saw

Product code 6060-002

This ever-popular timeless see-saw has an in-built non-bump mechanism for added safety.

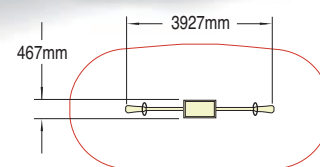

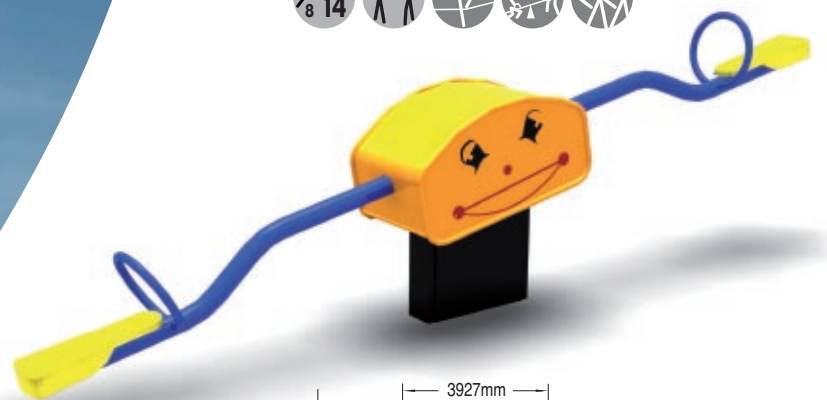

Wet Pour Safety Surfacing
 1.1m FFH: 21m² X 40mm

Jolly Gerald

Product code 6060-008

The happy smiling face and curved 'arms' make this see-saw, with its non-bump mechanism, a popular choice with both children and specifiers.
